| Project Title | GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES |

Aim:

To create a database in Cloudant DB to store location data.
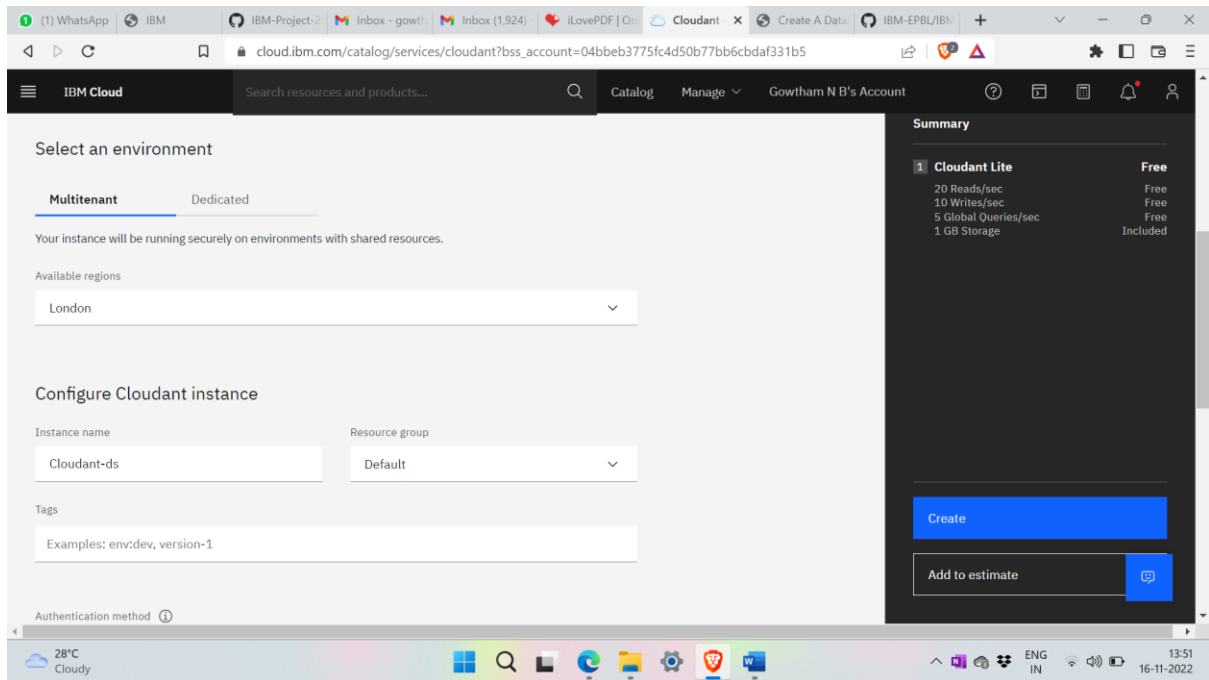

Steps followed:

● Logged in to IBM Cloud account.
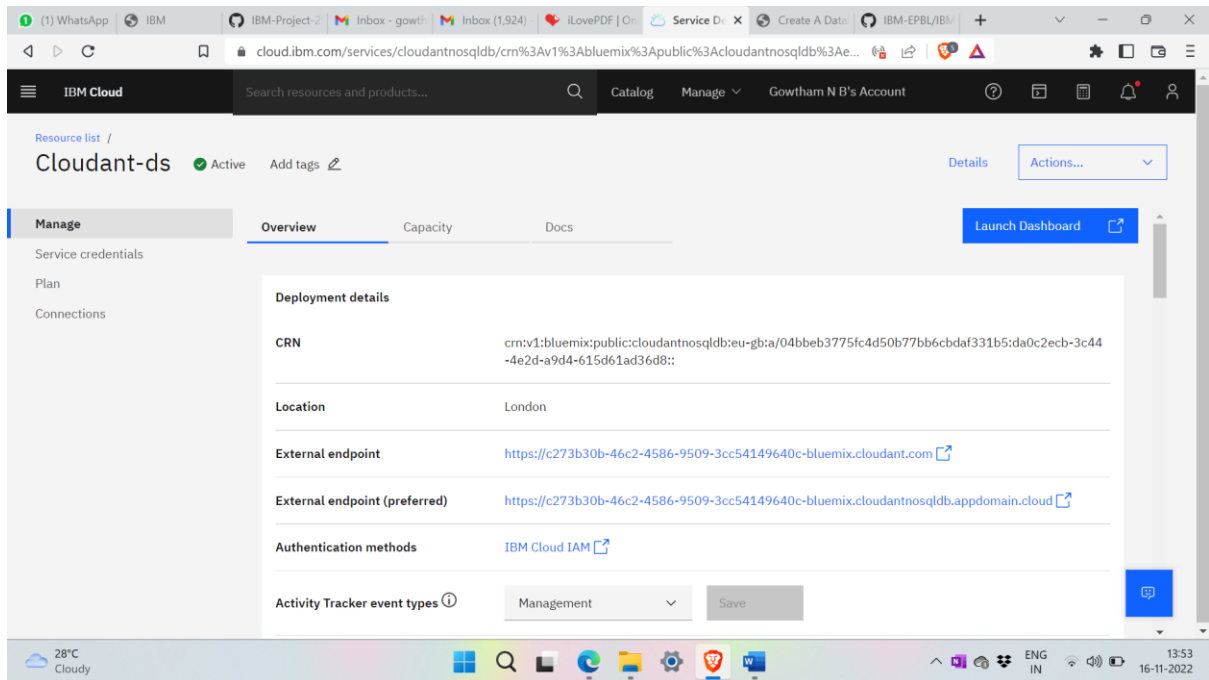

• Clicked on the "Create Resource +" button.

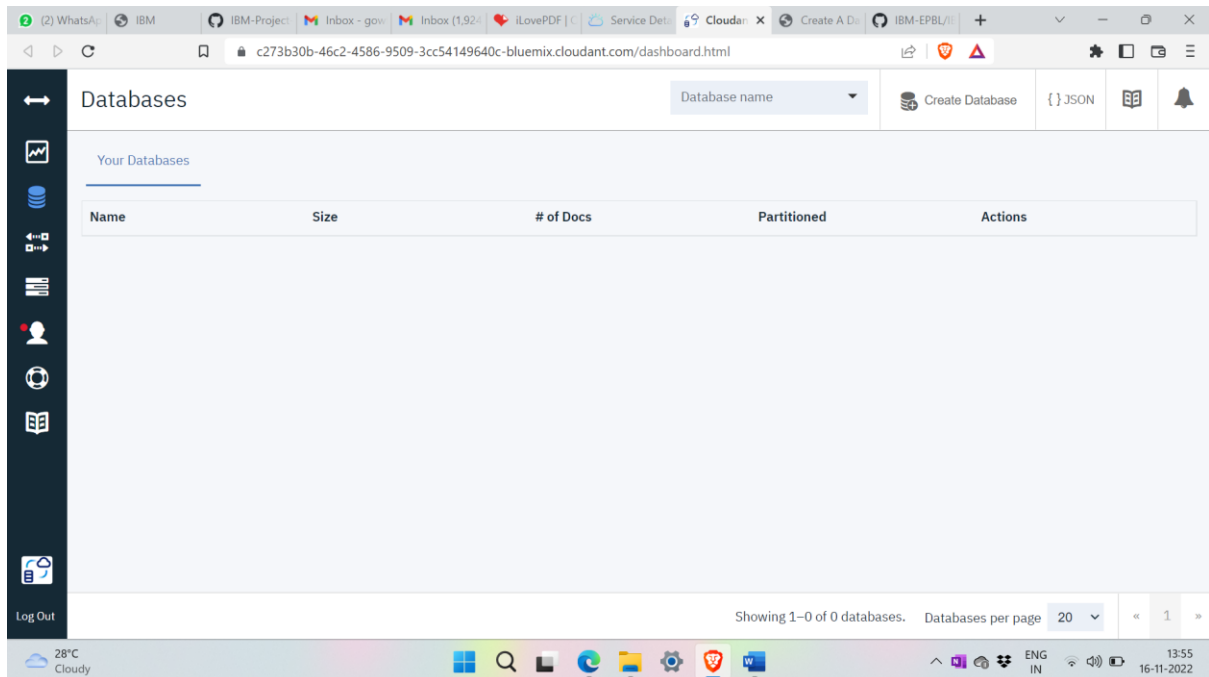

• Searched for "Cloudant"
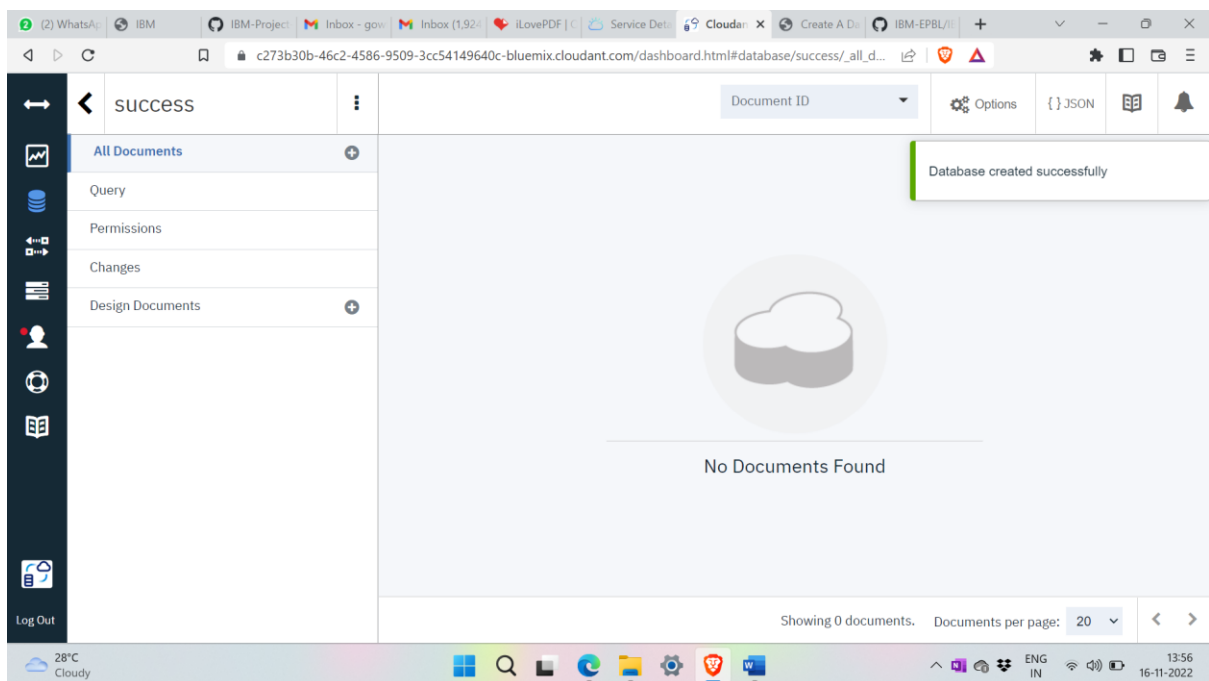

• Chose the "Lite Version" and clicked on "Create"

● The Cloudant database resource was created successfully

● Clicked on Launch Dashboard

● Clicked on "Create Database". Entered "success" as the database name and the "Non-partitioned" option.

● Database is created successfully.

## Result:

A database to store the location data was created successfully on Cloudant DB.
